THE WALLER GASE

The Ex-American Consul to Madagasoar Now in France.

GREAT ADVANTAGE IN THE CHANGE

It Will Facilitate a Settlement of the Case by the State Department-The Charge Against Him Said to be Baseless-Story of the Case as Told by the French Officials.

MARSEILLES, April 21.—The steamship Djemmah, from the leland of Madagascar, has arrived hero, having on board John L. Waller, formerly United States consul at Tamatave, who was recently tried by court-martial and sentenced to twenty years' imprisonment on the charge of having been a spy in the interest of the Hovas.

A dispatch from Washington says The removal of ex-Consul Waller from Madagascar to France is an advantage to Mr. Waller and this government, While this action on the part of the French government will only add to the French government will only add to the amount of indemnity it will be called upon to pay should Mr. Waller's friends show that the charge upon which he was sentenced is baseless, it will still facilitate the efforts of the department of state to fully develop the factz in the case, as it can now communicate directly with United States Ambassador Eustis, instead of being obliged to adopt the tedious course of acting through an inferior consular officer in Madagascar, out of reach of cable communication.

out of reach of cable communication.

Mr. Eustis has been instructed to pursue the matter to an end and make examination of all the facts attending the punishment of this American citizen. He will also make a special examination into the legality under treaty stipulations of the trial of a citizen of a friendly nation by court-marrial installed. ly nation by court-marial instead of the regular civil tribunals, as is customary and perhaps absolutely essential, Moreover, the case may involve the right of France to exercise jurisdiction over the internal affairs of Madagascar, from which she appears to have been express-ly excluded by the treaty of 1885, which

ny excluded by the treaty of 1885, which gave her only jurisdiction over the foreign relations of Madagascar.

The charge against Waller is that of being a spy in the interest of the Howas, against whom France had been waging war. The sentence was imposed by a court-martial held at Tamatave.

According to the accorded by France in the first of the first

by a court-martial held at Tamatave.

According to the story told by French officials the French soldiers had determined to make a descent on one of the large Hovas towns. It was to be a decisive stroke. The arrangements for the move were guarded with the utmost secrecy. In some way, however, Waller learned of the French movement, and is said to have conveyed full information to the Hovas. The latter quickly armed the threated town, so that when the French soldiers appeared they were met by an effective resistance. Instead of taking the place by surprise, they

met by an effective resistance. Instead of taking the place by surprise, they found everyone alert for the attack.

The alleged treachery was closely investigated, and, it is claimed, traced to Wailer. Aside from the chagrin to Which the French forces were put by having their plans miscarry, it is said to have seriously retarded the progress at the French arredition in Madasses. of the French expedition in Madagascar

UNDECIDED MINERS.

The Strike Situation - tnother Meeting to be Held To-day.

PITTSBURGH, April 21.-The miners' convention adjourned late yesterday afternoon, after being in session two days, and accomplishing nothing conclusive.
A conference was held with a committee of the operators' association and a step taken toward the settlement of the strike. The proceedings were conducted with the utmost secreey, and when the press committee was approached they stated that they had nothing to offer for

publication.

It was learned that many of the miners are dissatisfied with what they claim a lack of courage on the part of the officials. Cameron Miller, the national vice-president, was taken to task in the convention for alleged state-ments made concerning the weakness of the strike. He took the figor, ex-plained his position in most emphatic terms, and in turn took some of his ac-

terms, and in turn took some of his accusors to task for being unreasonable
and making inconsistent demands.
At the afternoon session Operators F.
L. Robbins, Alex. Dempster, G. W.
Schleuderburg, G. W. Chapman and T.
E. Young were present. Mr. Robbins
acted as spokesman for the party, and
stated the position of the operators.
He said they had serged to page 60. He said they had agreed to pay a 60

cent rate, and under present conditions of the trade could pay no more. Secretary Warner stated the position of the miners, claiming that the operaof the miners, claiming that the opera-tors could well afford to pay the rate de-manded, and that the price offered would bring the miners a step nearer would bring the miners a step nearer starvation. A general discussion of the situation then ensued, in which all the operators present and a number of dele-gates took part. After a protracted discussion the operators claimed they had no power to act, and agreed to ar-range for a meeting of the association, and if no spile have a joint necessing with and if possible have a joint meeting with The convention then ad journed until Monday morning at 10

The Fargo Daily Argus, of April 16, has the following notice of his demise:

"One of Fargo's most prominent citizens has passed away. Dr. Henry Capehart, soldier, physician and citizen, passed peacefully from earth to his well earned reward, shortly after midnight on Sunday. His was a life well rounded out, and there remains of him the recollection of a kind and generous man whom all loved, and against whose name there was never even the suspicion of an evil word. As surgeon and colonel of his regiment, as general of brigade and division under the gallant Custer and the immortal Sheridan, he made an enviable record, and was one of the an enviable record, and was one of the an enviable record, and was one of the few to receive a medal of honor from the government for conspicuous and daring action. THE WEEK IN OIL.

me Have Been Hurt and Many More Were Benefited.

PITTSBURGH, April 21 .- The oil market was tame and devoid of special interest yesterday. It was manifest early in the day that there were practically no pipeline certificates in possession of anybody but the Standard people, and that only a small lot of cash oil was available for market. The Standard buying agencies announced \$2.25 as the price for credit balances for the day. price for credit balances for the day. The exchange opened without show of interest at \$2.20, but in the absence of other buyers than the Standard, the price was gradually lowered to \$1.97, the closing bid. All the fluctuations were downward. Sales were light, and confined to cash oil, of which only \$36,000 barrels were traded in, the last sale being at \$1.93.

Instead of \$3 oil, which was frequently predicted during the past week, the price now heard is \$1.50. It is estimated for brokers and experienced producers that around \$1.50 is the natural price of oil where production can be made profitable. Sin:-The Preston County Journal of this week publishes what it claims to be the law as passed by the state legislature, with reference to the cigarette license. I will quote the law as printed from section 1 to the amendment added

on cigarettes, inclusive:
"No porson without a state license, therefore, shall keep a notel or tavera, eating house or restaurant, or furnish intoxicating drinks or refreshments at a public theatre, or sell, offer or expose for sale, or solicit or receive orders for spirituous liquors, wine, porter, ale or beer, or any drink of like nature, or any gaper wrapped cigarette or charter or paper wrapped cigarettes or cigarette pa

Per."

From the section quoted the law clearly requires,—that is it the journal of both houses as "corrected" show the law to be by title, etc., as printed—all persons, and that excludes none, to pay a license before selling paper wrapped cigarettes, yet nowhere in this first section or any other of this chapter is this license for selling paper wrapped cigarettes fixed at any given sum. True, it is when we reach section, sixty-six, where we find that the ficense to sell at retail cigarettes and cigarette papers,—mark, not paper wrapped cigarettes—the license is five hundred dollars.

If this act means anything, it means

the licease is five hundred dollars.

If this act means anything, it means that all who sell paper wrapped cigarettes are required to pay a licease without fixing what that licease shall be, while section sixty-six requires all retail dealers in cigarettes, whether cupeb, cinnaers in cigarettes, whether cupeb, cinnamon, tobacco wrapped, paper wrapped
or what not, to pay a license for selling
